In the current market, it is so important to price your home right and market it extensively. Both of these can be accomplished by an experienced real estate professional. Even if you are thinking of selling your home yourself, give me a call for a detailed price analysis. I would be happy to help you with any information. All inquiries are completely confidential and without any obligation. If you are thinking of selling and listing with a realtor, I would recommend you interview more than one and be sure to choose an experienced agent who can best represent your home for sale. Please contact Peggy Graef at 407-415-2365.

Sincerely,

Peggy Graef
